------------------------	--	---

- Application deadline: July 31th (Wed), 2024
- Evaluation Period: July 31th (Wed) - August 16th (Fri), 2024
- Evaluation criteria (20 points each of 5 items, 100 points out of total)

1. Novelty

Does it have novelty to realize new e-learning methods and contribute to the expansion of application areas by increasing non-face-to-face learning and innovative content suitable for the DX era, utilizing network technology, pioneering new application areas?

2. Reliability

Based on theories and insights to improve learning results, do you work on e-learning quality assurance (international standards, etc.) that leads to high-quality educational content development and learner mentoring by analyzing, designing, developing, implementing, evaluating, and improving e-learning?

3. Usefulness

Do you propose effective e-learning to improve the productivity of companies and organizations, such as offices and factories, or to improve the effectiveness of learning in educational institutions such as schools and universities? In addition, does the organization guide research to e-learning that introduces objective indicators for learning evaluation, utilizes e-portfolios, and leads to incentives for learners and creation of added value in society?

4. Technology utilization

Do you propose e-learning to encourage learners to learn by effectively utilizing various media such as video, voice, simulation, VR/AR, AI, or mobile terminals such as smartphones and tablet terminals?

5. Business Promotion

Are there any initiatives to incorporate social collaboration into e-learning, such as community formation among learners by utilizing social media and community formation through international exchange, cross-disciplinary cooperation, industry-academia cooperation, etc.?

Evaluator

Primary Evaluation: National AES Evaluation Committee

Second Evaluation: Global e learning Awards Evaluation Committee
